New Business

Fracking Workshop-Hal Fitch from the DEQ

Is there much activity south of Cadillac? The bulk seems to be in the Kalkaska
area.

Has the pace in Michigan slowed down? There seems to be no great rush in
Michigan.

Does the DEQ keep track of the chemical lists? On the Safety Data Sheets.

The DEQ does testing on the flow back water to help determine chemicals and
any radioactivity.

Are the regulations in Michigan tougher than most states? We have sound
regulatory standards, strict well construction standards, supervisors and more
reporting.

The DEQ website shows all permits issued.
